

The Remarkable Cures
Effectuated by Dr. Fruth has made him the most prominent Specialist of Chicago and placed him in the foremost ranks of his profession in America.
Dr. Fruth has been connected with the largest hospital in the country, and has no superior in diagnosing and treating diseases and deformities.

LOW LINIMENT.
This remedy is one that will cure all household ailments. It will cure Rheumatism, Neuralgia, Headaches, Burns, Frostbite, Sore Throat, Sore Eyes, Stiff Joints, and all other ailments. It is a sure cure for all these ailments. Price 50 cents. Dr. Fruth's Liniment is sold everywhere.

DR. A. C. FRUTH
The celebrated specialist, who has created such a sensation in and around Chicago by curing diseases that almost baffled the medical fraternity of the country, will visit Decatur

THURSDAY, SEPT. 20,
At the St. Nicholas Hotel.
Treats all curable medical and surgical diseases. Acute and Chronic Catarrh. Fissure, Fistula, or Ulcers cured by our electrical treatment. Irritation of Bladder and Kidneys, one treatment; also Female Diseases, such as falling of the womb, displacements (forward or backward) replaced, permanently cured.
Sterility. There are a great many women suffering from this—white or leucorrhoea or some other disease—which can be relieved and cured.
Ladies' hair. Suffering from hair on their faces, we remove them permanently by one treatment. Blisters, moles, etc., likewise, cancers, tumors, warts, cured by from two to five treatments. Varicose, hydrocele cured. Rupture cured.
Young Men suffering from errors cured in one or two treatments.
Deafness. There are many cases that can be easily restored. Deformities, club feet, curvature, properly treated.
Lung Trouble. Many cases are curable that have not gone too far. Will say to physicians of your city and county: If you have a patient or relative you wish examined, bring them, as he has no secret in his practice, and will be a pleasure in explaining every mode of treatment necessary.
Young and Middle-Aged Men, suffering from spermatorrhoea and impotency as the result of self-abuse in youth or excess in mature age, and other causes, producing some of the following effects, as emissions, blotches, debility, nervousness, dizziness, confusion of ideas, aversion to society, defective memory and sexual exhaustion are permanently cured by remedies not injurious. He undertakes no incurable cases, but cures thousands given up to die. Remember the date and come early, as his rooms are always crowded wherever he stops.
Ear—consultation by letter, but one personal interview preferred. Either may save future suffering and shame, and add golden years to life.
Address in absolute secrecy,

JOSEPH PHARO DEAD.
It was announced Saturday in these columns that I. P. Pharo, of this city, had received a telegram stating that his son Joseph had been injured at the stock yards in Chicago, and that if he wanted to see him he should come on at once. The father left at once, but the boy died before he got to the hospital, where the boy had been taken. The young man was 24 years old. He had been in the telegraph department of the Wabash, but at the time of the strike went out with the men, and lost his job. He subsequently went to Chicago and took a job of switching at the stock yards, and met with an accident which resulted in his death. He leaves a wife and one child. The body was taken to Louisville, Ill., for burial.
To Be Married.
Invitations are out announcing the marriage of G. W. Leonard to Lina Eymann, daughter of Mr. and Mrs. J. M. Eymann of Harristown. The event will be solemnized at 6 o'clock Tuesday evening, August 28, at the Christian church in Harristown. The contracting parties are prominent young people in that neighborhood and the wedding will be a popular affair.

A Decatur Party Visits Turkey Run and All Are Agreeably Surprised.
About 150 Decatur people left here Sunday morning at 7:30 for Turkey Run (or Bloomingdale Glens) on the L. D. & W. excursion. The ride was over at eleven o'clock, the excursionists getting off at Marshall, and there they took a hack or buggy or a spring wagon, as every style of conveyance in that section of the Hoosier state was there represented, and rode out to Turkey Run, a distance of three miles. The entrance to the grounds is a smooth track, about five acres square, over 125 feet above the river, and is surrounded and thickly studded with immense shade trees. On the grounds a dozen or more tents were erected, people assembling there for a week's sport from all sections of the United States. The scenery about the tract is exquisite, picturesque and sublime. There are 1133 acres in that section that are owned by an old eccentric German Scotchman, 400 acres of which land comprises what promises to become famous as Turkey Run. For eleven years the resort has been in charge of W. B. Hooghkirk, a middle-aged gentleman who related with much pleasure information regarding the tract. The principal features on the tract are the Lost Canyon, Bear's Hollow, Ice Chest, Rocky Hollows and Gypsy Gulch, besides many smaller features of equal interest to the curious sight seer. Surrounding the camping ground these deep gorges are to be found and one might walk for days and days and never reach the end of them. In the Ice Chest the temperature Sunday was 26 degrees. As a resort Turkey Run stands alone, as there are none equal to it for thousands of miles around. The place is as yet undiscovered by the student of nature, but a season more will find Turkey Run sought after by all the foremost geologists. Buildings are erected on the grounds and all provisions made for the accommodation of visitors.
A few words of praise might also be said of Conductor Curran, who took the train to Marshall, and of Conductor Trulock, who brought it back. They are gentlemen in the soundest sense and are wide awake to the conveniences of all the passengers.

Sales of Farms.
John B. Stoutenborough has sold his farm of 160 acres, two and one-half miles southeast of Macon, to G. W. Mendenhall at \$80 per acre. The farm is well improved and is cheap at that price. Mr. Mendenhall does not expect to reside on the farm, having recently leased 500 acres of the Judge Davis farm for a term of years. He is accumulating a little money each year and he wanted a safe place for investment, and land here is as safe as government bonds. Mr. Stoutenborough bought his father's home farm west of Macon and will move there next spring. The consideration was \$13,000.
Samuel C. McKay has sold his farm of 310 acres in the north part of the county to John H. Kieck, the consideration being \$23,250.

The Populist Meeting.
There was an effort late Saturday afternoon to hold a meeting of the Populists in the county, for consultation, the main object being to get the chairmen of the precinct committees in the county together. Not over one-third of the members were present. During the meeting it was discovered that the Populists as a party have no standing under the new ballot law and that the only way they could get their county ticket on the official ballot is by petition. This will require the signatures of 2 per cent. of the legal voters of the county, amounting to about 200. Those present thought that number of signatures could be secured. They will at once begin the circulation of petitions for signatures, and will meet again at the court house next Saturday.

Sold for \$800.
"Snapper" Garrison has sold the old McCafferty gift animal Aloha for \$800, and a probable match race of three miles for \$1,000 a side with St. Anthony is thus declared off. Time was when picture-vendors used to haunt the Garfield grandstand crying painting of the son of St. Mungo. And the local favorite was well fancied in oils.
Knows Her Father Well.
A story that is very apt and bright is told of one of the little girls of this city which is too good to keep from the public. It is said that Lollie Cochran, the 12-year old daughter of W. G. Cochran, said to her mother one day that she knew a way to find the north pole which would be successful. Upon inquiry she would to appoint a G. A. R. meeting there and her father would get there.—Sullivan News.

LOSS ONLY \$3,000.
The Macon Canning Factory to be Rebuilt at Once.
A gasoline stove caused the fire at Macon Saturday morning when the Macon Canning Company's factory building was destroyed. The loss was nearly \$10,000, and fortunately the insurance was \$6,000, so that the loss will be less than \$3,000. The capital stock of the company is \$25,000, and the stock holders, are J. L. Hight, Edward Hight, George Childs, W. H. Brooks, Peter Martin, Edward Carr, George Hight, S. G. Washburn, Edward Coombe, Mrs. L. Cazalet, J. A. Montgomery, Augustus Anderson, John Zollers, William Catherwood, and O. H. Draper. These gentlemen held a meeting Saturday night, and decided to rebuild the factory at once. New machinery was ordered to come on the first train, and this morning a force of men began the work of clearing away the debris preparatory to building the main floor of the factory, on which the new machinery will be placed and put in operation while the balance of the building is being finished. The company figures that there will be a delay of only about ten days in operations, and that all of the corn and tomatoes contracted for will be put up.
When the fire broke out there were two car loads of goods on the track close to the factory. It happened that an engine was at Macon at the time. It was run down to pull away the cars. But for the presence of the engine the two cars with their contents would have been consumed.

A New Counterfeit.
The department at Washington has sent out an accurate description of a new counterfeit \$10 bill which has recently made its appearance. It is said that the general style of the note is calculated to deceive, although it displays a number of glaring errors in the spelling of words and in the punctuation. The portrait of Webster in one corner of the bill is described as flat and unnatural in appearance, the shade lines being about the same depth over the entire face, which makes the white spot on the forehead too prominent. The small vine running from the right side of the counter and immediately under the word "the," upper left-hand corner, does not appear in the counterfeit. In the "penalty" on the back of the note the commas between the words "note" and "or" and the words "it" and "or" are omitted, as is the period after the word "debt," and the bracket after the \$5,000. The first word "this" is spelled "tais," and the word "plate" is spelled "plae."

Arrested at Kalamazoo.
This note of local interest appeared in the Chicago Inter-Ocean on Sunday: Edward C. Gay, representing an insurance company known as the Manufacturer's Lloyd's, was arrested at Kalamazoo at the instigation of State Insurance Commissioner Giddings for doing business for an unauthorized company.
Mr. Gay until recently had an office in Decatur. He made his home here, and kept house in the 1200 block on North Edward street. Some time ago Mrs. Gay and her son left for Cincinnati, and subsequently Mr. Gay packed up the household effects and stored them. His whereabouts have not been known until the Kalamazoo item appeared. It is not probable that the arrest will cause him serious trouble, although the Michigan insurance laws may be very severe.

Base Ball News.
A new base ball nine is being organized. They will be known as the "Athletes." The players will be Bob Bain, M. Hane, Kit Wilson, P. Mehan, C. Nell, Frank Hays, Paul Smith, F. Keck and Harvey Truax.
The Dr. D. J. Moore nine will go to Sullivan Tuesday to play ball. The Sullivan club will play a return game on Friday.
The Y. M. C. A. boys and the Macon county teachers will play a game on Tuesday at the ball park.

SIMPLE REASONS.

A soap bubble is round because every
part of its surface is equally pressed by
the atmosphere.

SHEEP thrive best in a pasture in-
fested with moles, because of the bet-
ter drainage of the land.

The tone of a bell or glass can be
stopped by the finger, because the vi-
brations are thus checked.

The porcupine is so called because
his name comes from two Latin words
meaning a thorny pig.

BOILED water tastes flat and insipid,
because the gases it contained have
been driven off by heat.

RED hair is of that color because it
is supposed to have a larger proportion
of sulphur than black hair.

A TUNING fork does not sound in a
vacuum, because there is no air to con-
vey the vibrations to our ears.

RUMS are covered with feathers, be-
cause these combine the highest degree
of warmth with the least weight.

A HEAVY dew is the precursor of rain,
because it shows that the atmosphere
is saturated with moisture.—Globe-
Democrat.

OVER LAND AND SEA.

ONE hundred lakes in the Tyrol Alps
have subsided and disappeared
within the last century.

MOUNT LOGAN, in Alaska, nineteen
thousand five hundred feet high, it is
now claimed is the highest mountain
in America.

ing theaters and houses will be one of
the chief attractions of the Paris ex-
position in 1900.

A long-distance telephone line be-
tween Madrid and Barcelona, a dis-
tance of five hundred miles, will be
completed in two or three months.

CHICAGOANS per capita are not as
well policed as Londoners, the police in
Chicago numbering only 2,736 for 1-
000,000 people against London's 13,814
for 5,000,000 population.

HORTICULTURAL HINTS.

ATTEMPT to grow no more fruit than
you can properly attend to.

VARIETIES will not run out if strict
care in the selection of seed is exer-
cised.

THE southern grown pole bean
clings to the pole better than northern
grown.

It is thought by investigators of the
subject that the soil has much to do
with the flavor of melons.

THE tomato has been greatly changed
in form by cultivation, but it is the
same old tomato in flavor.

It is claimed that if the green plants
of celery are weeded out the constitu-
tion and size of the vegetable will be
improved.

FOR YOUNG HOUSEKEEPERS.

WHEN ironing starched clothes have
a bit of beeswax tied in a piece of mus-
lin to rub the sadirons.

READY TO ADJOURN.

The Second Session of the Fifty-Third Congress

WILL PROBABLY EXPIRE THIS WEEK.

Nothing Now Remains to be Done but to Clean Up the Bag Ends of a Busy Session—Both Houses Without a Quorum.

WASHINGTON, Aug. 20.—There is good reason to believe that the week that opens to-day will see the close of the second session of the fifty-third congress. The work of the senate is finished; the last of the appropriation bills was completed and the conference report adopted Friday, and there is nothing now for the senate to do but to clean up the bag ends of a busy and very entertaining session.

About the only thing that keeps senators here is the tariff bill; and the general impression now is that the president will permit it to become law just as soon as the treasury officials are ready to carry it into effect. That he does not intend to veto the bill is clear, for the law point is not being prepared at the government printing office.

After that it is likely that the senate may meet for a short time daily and then adjourn pending the reception of the tariff bill. Until it is known just when to expect this measure from the president it is not likely that a joint resolution fixing a day for adjournment will be introduced.

In the meantime there will be an effort (and perhaps a successful one) to pass the house bill to repeal all laws authorizing a rebate of the internal revenue tax on alcohol used in the arts. Mr. Sherman in his "plain talk" on Saturday showed the necessity for the passage of that measure; and Mr. Allison will be heard on the same point and on the whole subject of this session's tariff legislation to-day.

There was nothing much for the house of representatives, apparently, but to wait for the action of the president on the tariff bill and then adjourn. The adoption of the Murphy resolution in the senate Saturday is taken as an expression of the determination on the part of that body to do no more business, and the futile efforts of the managers of the quorum to vote on the Sugar trust and bounty resolution demonstrated the fact that, like the house, the senate was practically without a quorum. Therefore, it is assumed that none of the bills yet in conference between the two houses will be further considered at this session, for it is not likely that they could be passed, even were the conferees to come to an agreement thereon.

Among this class of measures are two proposed judicial changes, one relating to the powers of commissioners appointed by territorial courts, and the other to the payment of state taxes levied against corporations in the hands of receivers appointed by United States courts.

The committee on rules has notified chairmen of committees applying for a day on which to consider business reported from them that no more allotments of time for that purpose will be made. As long as the house remains in session, bills may be considered and passed by unanimous consent; but nothing that does not meet general approval stands any show of getting through.

Just before the house adjourned last Thursday an effort was made to gain consideration for the bill reported by a conference committee and agreed to that day by the senate prohibiting the immigration of anarchists. But objection was made by several members, and the probabilities now are that it must go over until next session.

FIFTY-THIRD CONGRESS.

(First Session.)

SENATE.

WASHINGTON, Aug. 18.—It was demonstrated to-day that, while there is still a voting quorum of the senate—with nothing to spare, however—on some propositions, there is no such voting quorum on others. For instance, when the yeas and nays were called on an amendment offered by Mr. Mander-son to a resolution of Mr. Gray there was no quorum.

Mr. Gray's resolution was to instruct the finance committee to report back the house free sugar bill with an amendment for a revenue duty on sugar, without differentials on refined sugars. Mr. Mander-son's amendment was to report back the bill, with sugar still free, and with a provision committing this proposition that the vote was taken—the result being: Yeas, 21; nays, 20. The yeas included the two senators from Louisiana, Messrs. Blanchard and Caffery, and three of the four populist senators—Messrs. Kyle, Peffer and Stewart—the fourth, Mr. Allen, being paired with Mr. Hill, who would have voted in the negative. The negative votes were all given by democrats.

The result was that as there was no voting quorum, on a question where the yeas and nays were not allowed to be taken by pairs, the Gray resolution and pending amendment had to go over without action.

On the next question which was voted on that strictness as to pairs was not enforced, and a quorum was found. It was on a resolution offered by Mr. Murphy declaring the enactment of further legislation on contested matters at this session impracticable, and that congress should adjourn at the earliest possible date.

That resolution was adopted: Yeas, 27; nays, 16.

Then a resolution was offered by Mr. Lindsay declaring that congress should not adjourn until after the passage of a bill that would remove all direct or indirect advantages to the Sugar trust. But that went over till Mon-

day by the expiration of the morning hour. While it was pending, however, Mr. Sherman indulged in what he called "a little plain talk," showing up the fatal errors committed by the finance committee and the conference committee in not consulting the republican members of the committees—the consequence being a bill full of mistakes, which it was necessary to correct by the publishing of other bills.

The bill to repeal all provisions of law allowing a rebate on alcohol used in the arts had its second reading, and (its third reading being objected to) went over till Monday.

The resolution to appoint Mr. White (dem., Cal.) to fill the vacancy on the finance committee met with no opposition to-day and was agreed to without a division.

The senate adjourned at 3:40.

DODSON WON

The Great Twenty-Five Mile Road Race at Denver Saturday.

DENVER, Col., Aug. 20.—At 10:07 o'clock yesterday morning the great twenty-five mile road race was started over the Sand Creek-Brighton course, under a cloudless sky. There were nearly 100 entries and the greatest enthusiasm was manifested. Thousands of wheelmen lined the route and many more crowded in coaches followed the riders closely, the road laying along the Union Pacific tracks. The riders struggled along the road for the first two miles out from the start, forming a long line of revolving wheels and rainbow colors.

Murphy, in light blue, led the four other scratch men. There was a great deal of disappointment over the failure of Callahan, Zeigler, Van Wagner, Hamilton and other good men to start. Hamilton and Maguire, the two Denver favorites, were ill.

The visitors in the crowd pinned their faith to Murphy, Gardner, Bird, Bambridge and Dodson, the scratch man, while the Denver people were sanguine that Banks, with his eleven-minute handicap, and Kenshaw, Gerwing and Trask, who were in the seven and six-minute classes, respectively, would render a good account of themselves.

The first mile was reeled off in the teeth of a brisk breeze; while it made speeding harder it was refreshing to the riders who rode over the hot road. Hillstreet, of Cheyenne, punctured his wheel just before the start and was compelled to borrow another one. He rode about a mile on the second wheel and gave up the race.

It was a pretty spectacle as seen from the train windows, and hundreds of glasses were leveled at the riders. L. H. Dodson (11-minute) of Canon City, Col., won the race. Time, 1 hour, 22 minutes and 28 seconds. Bertie Banks (10-minute) the Denver boy, was second and W. E. Earlight, of Sioux City (11-minute), third. A. Gardner, of Chicago (scratch) won the prize, making the race in 1:23.41.

THE EZETA CASE.

The Warrants for His Arrest Not Yet Arrived from Washington.

SAN FRANCISCO, Aug. 18.—The warrants upon which it is supposed Gen. Ezeta will be arrested have not yet reached the city. Attorneys who represent the Salvadorean government have not heard from them, and the federal officials are in the dark even as to the status of the case. The first discussion of the matter between officials occurred this morning when United States District Attorney Garler visited the office of Commissioner Hancock. He discussed the Ezeta case and said that unless the government had discovered that it had made a mistake in giving Ezeta asylum on the Bennington, and intended to restore him to his original status by taking him back to San Salvador, he would have to be tried here. The fact that the Bennington had remained outside territorial jurisdiction made it impossible to reach him by any process; but, should he be landed, it would not require a warrant from Washington to effect his arrest. He could be apprehended on complaint of any one and examined as to the charges against him. An indictment for crimes with which he is charged would make a prima facie case against him, but otherwise it would be necessary to produce witnesses to the crime. It is understood that there are such witnesses now in this city.

Baseball.

The following games were played Saturday:

At New York—First Game—Chicago, 6; New York, 4. Second Game—Chicago, 5; New York, 5. Game called on account of darkness.

At Brooklyn—St. Louis, 4; Brooklyn, 9.

At Washington—Washingtons, 6; Louisville, 4.

At Baltimore—Baltimores, 17; Pittsburghs, 2.

At Philadelphia—Philadelphias, 11; Cleveland, 6.

At Boston—Cincinnati, 19; Boston, 6.

Killed by a Dehorned Bull.

MARTINSVILLE, Ind., Aug. 20.—John Harryman, aged 78, was killed by a bull in the north part of this county yesterday morning. The bull was dehorned, but butted him over and then trampled him to death. Two years ago this same bull tried to kill Mrs. Harryman. Harryman was a prohibition agitator, wealthy and very prominent.

Wants a Share of His Mother's Millions. SAN FRANCISCO, Aug. 19.—Another effort is to be made by Charles Fair, the son of the late millionaire senator, to get \$1,000,000 of his father's estate. He began proceedings for that purpose yesterday in the probate branch of the superior court. The amount represents the aggregate legacy to his deceased brother James and himself.

A Bad Wreck.

WORCESTER, Mass., Aug. 13.—The Adams express, which left Boston at 10:30, ran into an east-bound passenger train in the union depot in this city at midnight, injuring several persons and piling up cars of both trains.

AN AWFUL TRAGEDY.

A Sick Man Becomes Suddenly Irrational.

AND SEIZED WITH A MURDEROUS MANIA

Attacks His Wife, Brother-in-Law and Children with a Butcher Knife, Inflicting Frightful Wounds—Then Jumps from a Window.

NEWARK, N. J., Aug. 20.—In a little two-story house on Davis avenue, Kearney, an awful tragedy occurred at 3 o'clock yesterday morning, that resulted in the death of one man and the probable death of his wife and brother-in-law, and the attempted murder of four children. Thomas Hewitt, the central figure in the tragedy, lived on the second floor with his wife, Adel, and four children and Fred Purcell, his wife's brother, a young man 23 years of age.

Three weeks ago Hewitt, who is a moulder, 25 years of age, was compelled to quit work because of illness. Dr. Allers, the family physician, diagnosed the case as typhoid fever and one week ago Hewitt was compelled to take to his bed. The family was poor and he could not have a doctor in daily attendance, but he left word to be sent for if any change occurred in the patient's condition.

Saturday night at 11 o'clock Hewitt became irrational and called on his wife, who was in constant attendance, to pray for him. She was about to call her brother, who was asleep with their children in an inner room, when the patient dropped into a heavy slumber. The wife, who was fatigued with her long vigil, grasped the opportunity to take a little sleep, and threw herself wearily on the bed with the children. Two hours later she was startled by a noise in her husband's room, and peering through a small window she was horrified to see him standing in the center of the room, nude, with his underclothes lying on the floor in shreds.

Before she could move he rushed into the room and to where she sat on the side of the bed and said: "Del, my hour has come; I have got to die. For God's sake pray for me." The next instant he darted out of the room into the kitchen, and before his wife divined his intention, he reappeared with a large carving knife in his hand. Fright rendered the terrified woman speechless and unable to move, and in the next instant he plunged the long, keen blade into her shoulder, inflicting a wound six inches long. As he raised the knife for another blow Mrs. Hewitt grasped the blade with her left hand and he drew away, almost cutting the hand in two.

All this happened in less time than it takes to relate it and not a sound escaped, but Mrs. Hewitt's brother was aroused and grasping the situation, rushed to save his sister from her maniac husband. The latter with a power born of frenzy threw Purcell to the floor like a child, and pronouncing upon him, drove the knife through the prostrate man's shoulder into his left breast. Again he raised the knife, and Purcell, like his sister, attempted to ward off the blows with his right hand, with the result that his fingers were almost severed from the hand.

Turning from Purcell, Hewitt rushed to the room where his children were sleeping peacefully, unconscious of the terrible occurrence until the frenzied father with an awful laugh attempted to cut the head off Adele, the eldest child, who slept on the outside. His aim was unsteady and he only succeeded in cutting a frightful gash on the child's neck and shoulder. She awoke with a wild shriek which caused her father to drop the knife and rush headlong from the room. Into the front room he dashed and in the next instant he plunged through a window to the ground below, where he was picked up a few minutes later, unconscious and bleeding from a hole on the top of his head.

The child's shriek had aroused John Terhune and his son. They found Hewitt lying naked on the street. He had received concussion of the brain and died at 7 o'clock. There are only slight hopes of the recovery of Mrs. Hewitt and her brother. The child is painfully, though not necessarily fatally wounded.

DRIVEN TO SUICIDE

By Fears of Losing a Petty Government Position.

WASHINGTON, Aug. 20.—Capt. E. W. Nicholson, superintendent of the United States treasury stables, committed suicide yesterday afternoon by shooting himself in the breast. The wound did not cause immediate death, and he was taken to the Emergency hospital, where he died a few hours later. The deceased was from Indiana, his son, Meredith Nicholson, being an editorial writer on the Indianapolis News. He was a brother-in-law of Capt. Meredith, of Chicago, formerly chief of the bureau of printing and engraving.

The only cause that can be assigned for the act was despondency. It is said that Capt. Nicholson, who was a republican, was very anxious to visit his family in Indiana, but fearing that if he left his duties to make the visit he would lose his position, he became depressed in spirit and ended his life. Deceased was an old soldier and about 59 years old.

Killed by the Explosion of a Threshing Machine Boiler.

LA PORTE, Ind., Aug. 20.—At Medaryville, Pulaski county, Saturday, two men lost their lives by the explosion of the boiler of a threshing machine. August Sitkey, the engineer, was scalded to death, and John Cox was killed by flying pieces of the wrecked boiler. Peter Cox received injuries which may prove fatal.

COUNTERFEITERS ARRESTED.

A Quartette of Makers and Shovers of the Queer Run In.

CHICAGO, Aug. 20.—City detectives yesterday arrested four expert counterfeiters, who have been flooding the neighborhood of Western avenue for several weeks with spurious silver coin, dollars, halves and quarters. The men caught are Thaddeus Strankewicz, Joseph Rosinenitch, Casper Steaken and John Kilogski. Their victims were store and saloon keepers. One of the detectives "discovered" Rosinenitch paying for drinks with one of the "queer" dollars and with the aid of other officers ran down the rest of the gang. Strankewicz had a little jewelry store as a blind for his part of the business, playing bad money to make it passable. The police, armed with search warrants, made a concerted raid on the homes of the gang and found plenty of the coin on them. The outfit for making the stuff was also found secreted on their premises.

A Fatal Runaway.

ALLIANCE, O., Aug. 20.—Saturday evening John Hague, his wife and 1-year-old child started to drive to Minerva. The horses ran away. Mr. Hague was thrown under the horses' feet. His injuries will prove fatal. Mrs. Hague and the baby were also thrown to the ground. The child was killed instantly. Mrs. Hague was badly hurt. Despite this, she walked half a mile to the nearest house and reported the accident. She then fainted, and has remained unconscious since. Her condition is critical.

Street Car Troubles in San Antonio.

SAN ANTONIO, Tex., Aug. 19.—An attack was made on a street car yesterday morning by men in sympathy with the drivers. A small riot followed, but no one was injured. On the return trip the motorman stood off the mob with a Winchester. Numerous arrests have been made.

'My throat became so sore from efforts to remove accumulations that I could scarcely swallow. I coughed and hawked incessantly. Frequently spat blood. I could not stand up straight at times on account of terrible spells of dizziness. I was very nervous at night and tossed all night long.' 'I was a great sufferer from night sweats, and I became so weak that I did not know what would become of me. My appetite went back on me, my stomach was out of order, and half the time I had to vomit up my food.' 'By good fortune I was directed to apply to Dr. Jones. I placed myself under their treatment only a short time ago, and I am delighted to say that I am feeling better in a thousand ways. CHRONIC CATARRH.

Mr. Frederick G. Kaufman, residing at 116 Carroll street, Cleveland, Ohio, says:
"I want to add my testimony to that of others that Dr. Abel can cure and do what he says he can. I was afflicted for two years with a most severe case of catarrh of the head and stomach. My head ached as though it would burst; throat sore and cough bad; no sleep at night; no appetite; no digestion; always tired and stomach in terrible condition; general health wrecked and flesh strength and ambition gone. Dr. Abel has cured me. I have regained my lost flesh and vitality and I am to-day a strong and well man. He is a master of his profession."
Miss Evans of 1670 Nilson avenue speaks as follows:
"Dr. Abel cured me of a most serious case of catarrh. It was so bad that I had begun to affect my hearing. My head had the strangest feeling. I can't describe it. Bumping, roaring and such sounds. I couldn't hear as good as formerly could and was gradually growing deaf. In a short time after taking Dr. Abel's treatment the noises ceased and in a few months I was cured. FROM THE ORIENT.

Latest Intelligence by the Steamship China.

JAPAN IMBUE WITH THE WAR SPIRIT

And Bent on the Humiliation of Her Big Enemy—China Expects Early Defeat, but Ultimate and Complete Victory.

SAN FRANCISCO, Aug. 17. — The steamer China, which arrived from the Orient yesterday afternoon, brings advice up to August 7. The Japanese people are stirred to their depths by the present complication with China. The affair absolutely engrosses the attention of the people, high and low. So soon as matters assumed a serious complexion petitions began literally to pour into the central staff office from country localities asking permission to serve in the army. Among the leading signatures was that of Gen. Shisoku, who has seen active service on an occasion either of the restoration or of the civil war in Matsuma.

The Japanese Gazette says: "The whole nation is imbued with one spirit—to humiliate China. High and low, rich and poor, soldiers and merchants have but one desire. Probable consequences are utterly ignored. No thought of possible reverses, of bloody reprisals upon Japan's coasts, or of financial confusion daunts their warlike ardor. In Japan's immense superiority they repose utmost confidence."

"Nor is the temper of the Chinese, so far as it can be gathered from Shanghai papers just received, one wit less bellicose. It is more dangerous because they admit that at first Japan may be victorious. But of the ultimate issue they have no doubt. Japan with its slender resources of men and money, they aver, can be no match in the long run for China's millions. The magnitude of the preparations might well make Japan pause if she had not already proceeded too far to extricate herself without loss of prestige. But this is impossible, and the two nations now stand committed to war."

The following account of the battle at Songhwan is published in a Japanese paper: "Our army was drawn up in battle array at Chihwon, while the Chinese troops were posted at Songhwan and Phuyong Thaik. Now, between the two armies lay a track of rice swamp through which flows a small river. Our troops fought very hard with this river between themselves and the enemy, but it being very difficult to cross this stream under fire, a party was dispatched by way of Chik San, so as to make a flank attack on the Chinese. The Chinese were not prepared for this move, and they were easily put to flight."

The number of Chinese engaged in this fight is said to have been 2,500. "A panic is feared in Japanese financial circles on account of the Korean embargo," says the Asahi. "Banks have suspended their loans, while deposits are being fast withdrawn. Capitalists are unwilling to invest, as they expect to have an opportunity of making large profits through the panic. The money market is now very stiff. But," continues the Asahi, "this is merely due to the inference drawn from the fact that the present war is far greater and more expensive than the Russo-Japanese rebellion."

Panic, in consequence of the war, is rising in price. "The Taichi," says the North China Daily News, "has informed foreign consuls that measures will be taken to close Woo Sung bar."

The same paper states that 12,000 troops have been safely landed in Korea. The Naniyang squadron is to attack the coast of Japan, while Foo Chow and Canton ships are to make an attempt on the Loo Choo islands, so that, as anticipated, the viceroy will not content himself with operations in Korea.

The China Gazette learns that 20,000 troops are being called out for each province. It is also rumored that Japanese cruisers are preparing for an attack upon Silver Island so as to command the Yang-tse and to prevent the coming up of the 300,000 troops from Nanking.

The Tien-Tsin correspondent of the China Gazette says: "We hear from Korea on good authority that a great deal of sickness prevails among the Chinese troops, and that they are hanging themselves by dozens in despair of their surroundings. The Japanese also are in a pretty bad plight, great numbers having died, and illness is still rife in their camp. But the death rate is very much higher among the Chinese."

Ministers of state for home and foreign affairs dispatched telegrams on the 25th ultimo to local governors to cause them to assure Chinese living in their respective jurisdictions that even in case war should be declared against China their safety shall receive the attention of the Japanese government. The Chinese government will take similar steps for the safety of Japanese subjects resident in China.

Volunteer corps are steadily forming in various parts of Japan and the war office is being inundated with offers of help, both in men, materials and money.

The archives of the Chinese consulate at Yokohama have been placed in custody of the American consul-general, the Chinese minister and consuls having left Japan for home.

connected with diplomatic affairs or military subjects which is intended to be inserted in newspapers, magazines or other publications. Another imperial ordinance is to the effect that all Japanese subjects, with the exception of civil and military officers and persons commended by the government, are prohibited from immigrating to Korea without permission.

Various rumors are circulated about the divorced Korean queen. It is said that she is now under the protection of the British consul-general, while another story says she is hiding near Nam Sang. Another story says she is still residing in the palace, but is seriously ill with malarial fever.

The Jiji Shampo reports that inhabitants of Seoul are in great distress on account of the enormous increase in prices caused by the present complications and by the entire stoppage of transportation of rice.

The Hong Kong Mail says: "Japan seems to be prepared to take the field, but China, as may be imagined by those who know anything of the methods of the mandarins, could not, it is generally believed, do more than act upon the defensive. For most part her army exists on paper only, while the navy is not so powerful as has been reported."

The Japan Mail says: "Now that fighting has commenced between China and Japan, we may expect that events will move rapidly. There has been an assured belief in Peking that the European powers would never allow the situation to reach a belligerent stage. And in confidence of that belief China has been allowing herself to talk very large. But Japan cannot possibly consent to any settlement that leaves China exultant. The heart of this country is in the struggle. Its honor is thoroughly involved. Every effort should be made to cripple or destroy the Chinese navy. Command of the sea would mean for Japan liberty to carry out without molestation her scheme of reform in Korea. It is not necessary for her to strike any blow at the heart of China. Her programme, we think, should be to secure herself in Korea, leaving to the Chinese the task of driving her out. Such a task is wholly beyond their strength."

The plague has been stamped out at Canton, and is abating rapidly in Hong Kong. In the hospitals the numbers of sick have been reduced to less than a hundred, but as the Chinese are beginning to return from the main land, it is feared there may be an increase in cases of the disease.

A GLOOMY VIEW.

Chinese Losing Faith in the Impregnability of Wei-Hai-Wei.

LONDON, Aug. 29.—The Shanghai correspondent of the Central News gives a gloomy view of affairs at Wei-Hai-Wei, the fortified city on the Shan Tung promontory. There is little doubt that the Japanese intend to attack this Chinese stronghold shortly, despite the tradition of the Chinese that the place is impregnable. The lights along the promontory have been extinguished and the boats have been removed, and the Chinese are constantly doing to the defenses by laying torpedoes and submarines.

Nevertheless, on three successive nights last week Japanese torpedo boats entered the harbor and reconnoitered the forts. The crews of the Chinese torpedo boats, which lie in the harbor, had no inkling of the nearness of the enemy until the Japanese vessels were leaving. The Wei-Hai-Wei forts then opened fire, but it was too late to accomplish anything.

The success of these three Japanese expeditions has shaken greatly the confidence of the army in the impregnability of Wei-Hai-Wei. The supposition is that the Japanese are preparing for a combined land and sea attack on the stronghold. The garrison is being increased to meet such an attack and heavy guns are being added to the artillery in the interior line of defenses.

The foreigners who were employed in the Wei-Hai-Wei arsenal are leaving the place. Nearly all the Englishmen and Scotchmen have gone, and within a few days only natives are likely to be left in the shops. The feeling against foreigners is running high among the military in the city. The soldiers have fired several times upon foreigners who were leaving the shops, and have been checked only with difficulty by their officers. Often the foreigners are insulted as they depart, solely due to the strenuous efforts of the officers who have been charged with the responsibility for their safety.

The main Japanese squadron has been sighted again in the gulf of Pechili.

The natives of the seaports have been forbidden to use Japanese coins. How She Lost Her Centerboard. COWES, Aug. 19.—Howard Gould says that the Vigilant struck the ground close to the Needles, the chain of her centerboard broke and the board sank. He blames Pilot Disper for running the sloop aground. Disper says that at the time he did not know the centerboard was down. Mr. Gould said he did not think the Vigilant would get another centerboard here. He thought she would race again, however, before leaving English waters, toward the end of September.

Won by Zimmerman.

LONDON, Aug. 19.—A. A. Zimmerman, the American wheelman, won the international five-mile scratch at Gosforth yesterday. Wheeler was second, Banker third, Harris fourth, Max fifth and James sixth.

In the five-mile tandem race Harris and Banker were first, Edward and Max second and Wheeler and James third.

They Remember the Alabama Award. LONDON, Aug. 19.—The government has ordered the customs officers at Newcastle to seize, under the foreign delinquent act, a torpedo-boat built at the Elswick works on China's order, and to detain the vessel until she shall have been condemned and released by process of law.

Most Remarkable Cures Ever Made by Any

Oculist & Aurist in the World

And which it would be impossible to make were it not for the New Methods and Treatments discovered by

DR. W. O. COFFEE,

The Eminent Oculist and Aurist,

Now at the St. Nicholas Hotel, Decatur. He, finding it impossible to get through with all operations by Saturday, Aug. 18, has decided to extend his visit one more week, to

Saturday, Aug. 25.

If you have Catarrh, or Deafness, or Cross Eyes, or any Disease of the Eye, Ear, Nose or Throat and want to be cured read what these people say and their experience, and if you do not believe you can be cured you should go deaf all your life. These are only a very few of the great number treated by him in the last 3 weeks here, but they show what he is doing every hour, every day. There is not a day that he does not restore from three to six deaf people to their hearing at one treatment, and he will refer you privately to over 100 deaf people cured by him in Decatur.

Send word to your friends and tell them to come and see me. I will refer them to some cases cured that suffered exactly as they do. Remember, if you are not able to pay now we will give you plenty of time to pay us. The blind restored to sight, the deaf made to hear, cross eyes straightened in one minute. Catarrh cured quickly and permanently; treats all diseases of the eye, ear, nose and throat. Consultation free. Hours from 9 to 4 and 7 to 8.

NEW TREATMENT FOR DEAFNESS

More Evidence that Dr. Coffee Can Make the Deaf Hear.

It is but a few weeks since Dr. Coffee opened his office in the Harper House, but during that time he has clearly shown the citizens of Rock Island that he can cure any disease of the eye, ear, nose or throat. Many cases have come to him that were of years standing, the sufferers had treated with all the well known specialists, and found no relief. Many of them had given up, and doubtless would have been past recovery had not Dr. Coffee come here. But, as the old saying goes, and it is a true one, "A drowning man will catch at a straw." These people went to Dr. Coffee. The majority of them went more through idle curiosity than anything else, but after meeting the doctor and becoming impressed with him, they decided to give him another trial. In every instance he has helped the patients, and those who are not already cured, are on the road to recovery.

A typical case of this kind comes to our mind now. It is a case that has been to consult the best eye and ear men in Chicago, and each of them said that the boy was incurable and could not be benefited by any one, and the father and mother had given up all hopes of this boy ever being restored to hearing and speech, until two weeks ago when they were persuaded by their neighbors to take the boy to see Dr. Coffee, as it would do no harm, or cost anything for consultation. The case we refer to is the son of Joseph Scherer, of Free-emption, a wealthy farmer, and known in town. His son is now 15 years old. When he was a little baby 2 years old he gradually grew deaf, and in six months he was so deaf he could hear nothing and has not been able to hear since, and, therefore, never learned to talk. When he came to Dr. Coffee he could hear absolutely nothing in one ear and just hear sounds in the other. The boy stayed in Rock Island one week and boarded with B. F. Knox, and in six days' treatment Dr. Coffee restored the boy's hearing so that he could hear an ordinary conversation three feet away in both ears. This, we think, is one of the most remarkable cures of deafness ever made, and gives a little idea of the wonderful work being done by Dr. Coffee at this place. He will be here until Saturday, April 14.

Miss Anna Wagner, of 308 West Knox street, Galesburg, eyes have been crossed since a child. Was straightened in one minute by Dr. Coffee without pain or chloroform. Eyes are now perfect.

Lucien Warren, son of that works on the Mail in this city was cross eyed since 3 years old and his eyes were straightened by Dr. Coffee in one minute at the Union Hotel.

Mrs. Johnson, landlady at the stock yards Hotel, was deaf in one ear for 20 years and steadily improved under Dr. Coffee's treatment.

Miss Emma Peterson, of Victoria, was cross eyed for 10 years and had them straightened by Dr. Coffee at the Union Hotel.

Mrs. L. M. Bartlett, of Rio, says: I have been growing deaf for several years and also losing my sight. Dr. Coffee's treatment benefited my sight and hearing immediately, and I recommend all persons suffering with deafness to go and see him.

John Richards, a young man 24 years of age, a carpenter in this city, has been growing deaf for two years, had constant noises in ears and suffered with catarrh all the time. Was completely relieved in three days by Dr. Coffee at the St. Nicholas hotel. He recommends all deaf people to go and see him.

Albert Jones, living 6 miles out from the city, says: Dr. Coffee operated on my son for cross eyes last week and they are perfect now. The operation only required one minute and was without pain and I took him home without a bandage.

T. L. Johnson of Warrensburg had been deaf for five years with chronic catarrhal deafness. Had constant noises in his ears, stopping up of the nose and dropping of mucus in his throat; had been treated by oculists in Springfield and Dr. Loam with no benefit. Called on Dr. Coffee at the St. Nicholas last week and was treated twice a day for three days and in that time his hearing was restored more than as good again than before. He says the treatment is now and entirely different from anything he ever saw before and gives immediate benefit. If you are deaf go and see Dr. Coffee.

Mrs. Henry Nottthoff, 924 East Wood street, says: I have suffered for years with a very severe throat trouble and enlarged tonsils and abscess and stopping of the nose and Dr. Coffee gave me immediate relief in one treatment.

Thos. J. Alexander of Bement, Ill., says: I have been deaf and gradually grew worse for 10 years until I could hear only with a speaking tube. I have been treated by several Oculists and Aurists with no benefit whatever until I called on Dr. Coffee at the St. Nicholas last week and in 3 days he restored my hearing at least one third. His treatment is new and something different from anything I ever saw.

James W. Cameron, of Harrison, had very severe nose trouble that has stopped up his nose for 2 or 3 years, was relieved by Dr. Coffee at the St. Nicholas Hotel in five minutes and makes him feel like a new man.

Joseph Tillman, 785 East Wood street, almost completely deaf in one ear and was relieved immediately by one treatment with Dr. Coffee at the St. Nicholas.

Mrs. W. H. Brooks of Macon, whose husband is one of the leading men of that section, says: I have treated with several oculists and aurists and spent a great deal of money and had given up all hope of being cured until I called on Dr. Coffee Monday. His treatment made me hear one-third better the first time.
